

RITU ANAND

B.Tech CSE • Aspiring Software & Web Developer

India | aritu2650@gmail.com | 8102416067 | GitHub: Voyager067 | linkedin.com/in/ritu-anand-dev

TECHNICAL SKILLS

- C, C++, Python, JavaScript
- HTML5, CSS3
- Python, Flask
- Node.js (TypeScript)
- Git, GitHub, VS Code
- Docker — learning
- MongoDB, Atlas, Mongoose

CORE STRENGTHS

- Problem Solving
- Logical Thinking
- Communication
- Team Collaboration
- Adaptability
- Continuous Learning

INTERESTS

- Software Development
- Web Development
- Backend & Full-Stack Development
- Programming & Problem Solving

PROFILE

Motivated B.Tech CSE student with a growing foundation in software development and web technologies. Hands-on exposure to C++, Python, JavaScript, HTML, CSS and Flask, with project experience in e-commerce and portfolio development. Interested in building practical applications and continuously strengthening programming and backend skills.

EDUCATION

Bachelor of Technology (B.Tech) — Computer Science Engineering	Expected 2029
Bakhtiyarpur College of Engineering • 3rd Semester / 2nd Year	
Class XII — Rajkiyekrit Janta High School	BSEB • 83.6%
Class X — Happy Valley School	CBSE • 96.2%

PROJECTS

EKart — E-Commerce Web Application

Tech: HTML, CSS, JavaScript, Python, Flask, TypeScript, MongoDB, Atlas, Mongoose

- Developed a practical e-commerce application focused on an online shopping experience.
- Built interface components with HTML/CSS and added client-side functionality with JavaScript.
- Explored backend application development with Python, Flask and TypeScript.
- Practiced Git/GitHub-based project organization and version control.

Personal Portfolio Website

Tech: HTML, CSS, JavaScript

- Created a modern portfolio to present education, technical skills and projects.
- Designed a structured, responsive interface with dedicated project and resume sections.

DEVELOPMENT FOCUS

- Programming fundamentals and C++ problem solving
- Web development with HTML, CSS and JavaScript
- Backend development with Python, Flask and TypeScript
- Version control with Git and GitHub; exploring Docker

CAREER OBJECTIVE

To begin a professional journey in software development, apply programming and web-development skills to real-world projects, learn from experienced professionals, and grow into a capable software engineer.
